Annual rent October	£700.00		
TOTAL	<u>£2998.71</u>		<u>£2998.71</u>

Activities

Beneficiaries

There were 34 beneficiaries this year and each received £22.00.

The Trustees agreed that, in accordance with government plans to work towards equalising ages for payments of retirement benefits to men and women, all future payments would be made to beneficiaries who were 65. Payments currently made to women between the ages of 60 and 65 would continue.

Developments on the Land

Mr Mephram reported that the red oak sapling planted in place of the wych elm was growing well, as was a newly planted conifer and an English elm.

Mr Mephram reported that he and Mr W Mephram had cleared the supply pipe that had been blocked by large tree roots and that the water supply was now running well. They had also pruned several trees to let in more light to the area around the pond.
