

Carlton Neighbourhood Watch

Annual report May 2014

The objectives of Neighbourhood Watch in Carlton are

- to reduce crime and the fear of crime by spreading knowledge of activity and prevention tactics
- to encourage neighbourliness and a sense of community in looking after one another and especially the more vulnerable
- to share knowledge of local police issues and encourage strong links with our local beat team

70 households in the area are currently registered with the Neighbourhood Watch Coordinator Rosi Yule at 59 Main Street, and receive monthly e-mail local crime updates and relevant alerts and crime updates selected from the Neighbourhood alert system. To register for this service please email chalkstorm@btopenworld.com

During the past year there have been 11 reported crimes in the parish:

- 2 thefts from dwellings
- 1 theft of vehicle
- 1 theft of tools from building site
- 1 theft of number plate from car
- 1 theft of craft dog statuettes
- 1 theft of planter
- 4 outbuildings and sheds broken into but nothing taken.

There are about 130 dwellings in Carlton, so the general level of crime is very low, but this is no consolation to the unfortunate victims who have our sympathy.

PC 2187 Chris Cox is the Beacon Officer for Carlton, and regular crime updates are provided by PCSO 6115 Mike Chapman. We thank both Officers for their support over the past year.
